

INTRODUCTION

It is the continuing policy of **H-2 Enterprises, LLC (H2)** to act responsibly toward their employees and clients in the safe operation and conduct of all activities. All reasonable methods procedures and equipment necessary to achieve this end will be used. There will be no compromise with safety. **H2** will comply with all local, state and federal health, safety and environmental acts, laws, and ordinances as well as with time proven and industry accepted safe work rules and practices.

SAFETY GOALS

Zero Deaths
Zero Incidents
Zero Vehicle Collisions
Zero Environmental Accidents
100% State and Federal Safety Compliance

H-2 Enterprises, LLC will meet the requirements of our HSE Policy Handbook herein.

Employees will review each policy, program and procedure each year, and training will be conducted to ensure compliance and adherence to qualification adherence.

All employees will have access to these policies, programs, and procedures at any time. They will be found at the home office, shared network drive, and each project supervisor/foreman will have HSE Manual available to refer.

All employees will have access to these policies, programs, and procedures at any time. They will be found at the home office, shared network drive, and each project supervisor/foreman will have HSE Manual available to refer.
