

ENVIRONMENTAL GENERAL WASTE MANAGEMENT

Doc. Type:	Policy	Effective Date:	5/1/2017
Section:	31	Revision Number:	00
Status:	Issued	Last Revised:	5/1/2017

1. Introduction

DH2 Enterprises, LLC () has adopted this policy to inform employees of the General Waste Management Plan. This ensures the safety and health of the employees.

- b. Director of HSE is responsible for ensuring that the following policy is enforced.

2. Waste Estimation

- a. Prior to the commencement of work, it is the policy of **H2**, to ensure that an estimation of the wastes, trash & scrap materials that will be generated is conducted. This will be performed so the need for containers, and waste removal, if necessary, can be determined.

3. Disposal of Waste

- a. It is the determination of + ~~to~~ coordinate with the project or site owner to ensure the proper disposal of wastes or scrap materials. **H2** will ensure that the owner is aware of whether wastes and scrap materials will be taken off site or will be disposed of on the owner's site.

Responsibilities

- a. To ensure the proper disposal wastes or reuse of scrap materials + has designated Site Safety Representative to be responsible.

5. Safety Hazards

- a. It is the determination of **H2** to ensure that safe practices related to the immediate storage and handling of waste, scrap, or leftover materials are carried out. Always be aware of what you are handling. The proper personal protective equipment will be used before handling.

6. Handling, Organization, & Storage

- a. It is the policy of **H2** to ensure that waste materials will be properly stored and handled to minimize the potential for a spill or impact to the environment. During outdoor activities, receptacles must be covered to prevent dispersion of waste materials and to control the potential for run-off.
- b. It is the policy of **H2** that all types of waste or scrape materials generated will be stored properly and in an organized fashion.

- c. **H2** ensures that project related wastes will be stored and maintained in an organized fashion to encourage proper disposal and minimize risks to employees. Proper waste receptacles will be provided for trash and materials that may be reused or recycled during a project.

7. Proper Methods of Disposal

- a. It is the policy of **H2** to ensure that all employees are instructed in the proper method to dispose of wastes.
- b. Employees of **H2** will be instructed the general disposal of non-hazardous wastes, trash, or scrap materials. If wastes generated are classified as hazardous, employees will be trained to ensure proper disposal.

8. Waste Segregation

- a. It is the resolve of **H2** to encourage employees to properly segregate waste or scrap materials to ensure the opportunity for reuse or recycle.
